(54) NOVEL MICROORGANISM AND PRODUCTION OF GIBBERELLINS**(57)Abstract:**

NEW MATERIAL:Pheospheria sp. L-487(FERM P-10137) having producibility of gibberellins.

USE: Production of gibberellins useful as a growth hormone of plants.

PREPARATION: Ascocarp of the above-mentioned microorganism adherent to gramineous plant body is collected.

LEGAL STATUS

[Date of request for examination]

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's decision of rejection]

[Date of extinction of right]
